A Network for the Future

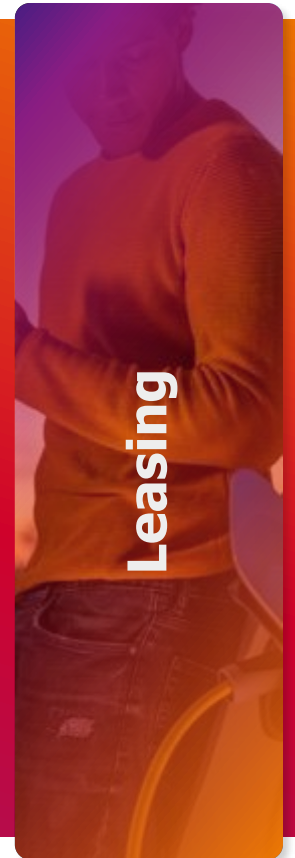

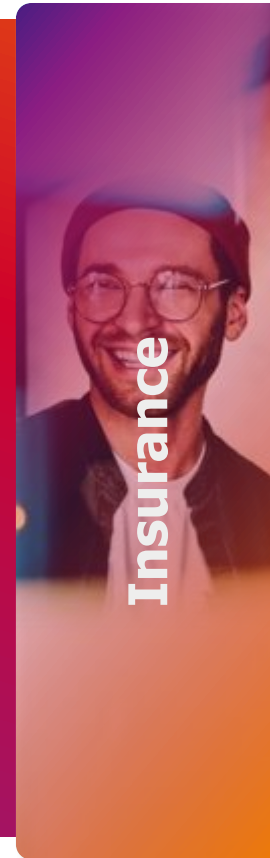

Technology and Innovation for our Customers

Our smart offer for the Financial Sector

Those who want a strong market position as a financial services provider **must be on the pulse of the times.**

We enable **growth, efficiency, and innovation** through our modular, scalable, and customizable offering of **integrated products and services.**

We are **THE Operation Center for regulated IT services** in the financial industry

As the **Financial Services Operation Center** of Sopra Steria Group, we combine the regulatory **know-how** of our more than 40-year history with the **power** of the Sopra Steria ecosystem.

Financial Services Operation Center Portfolio

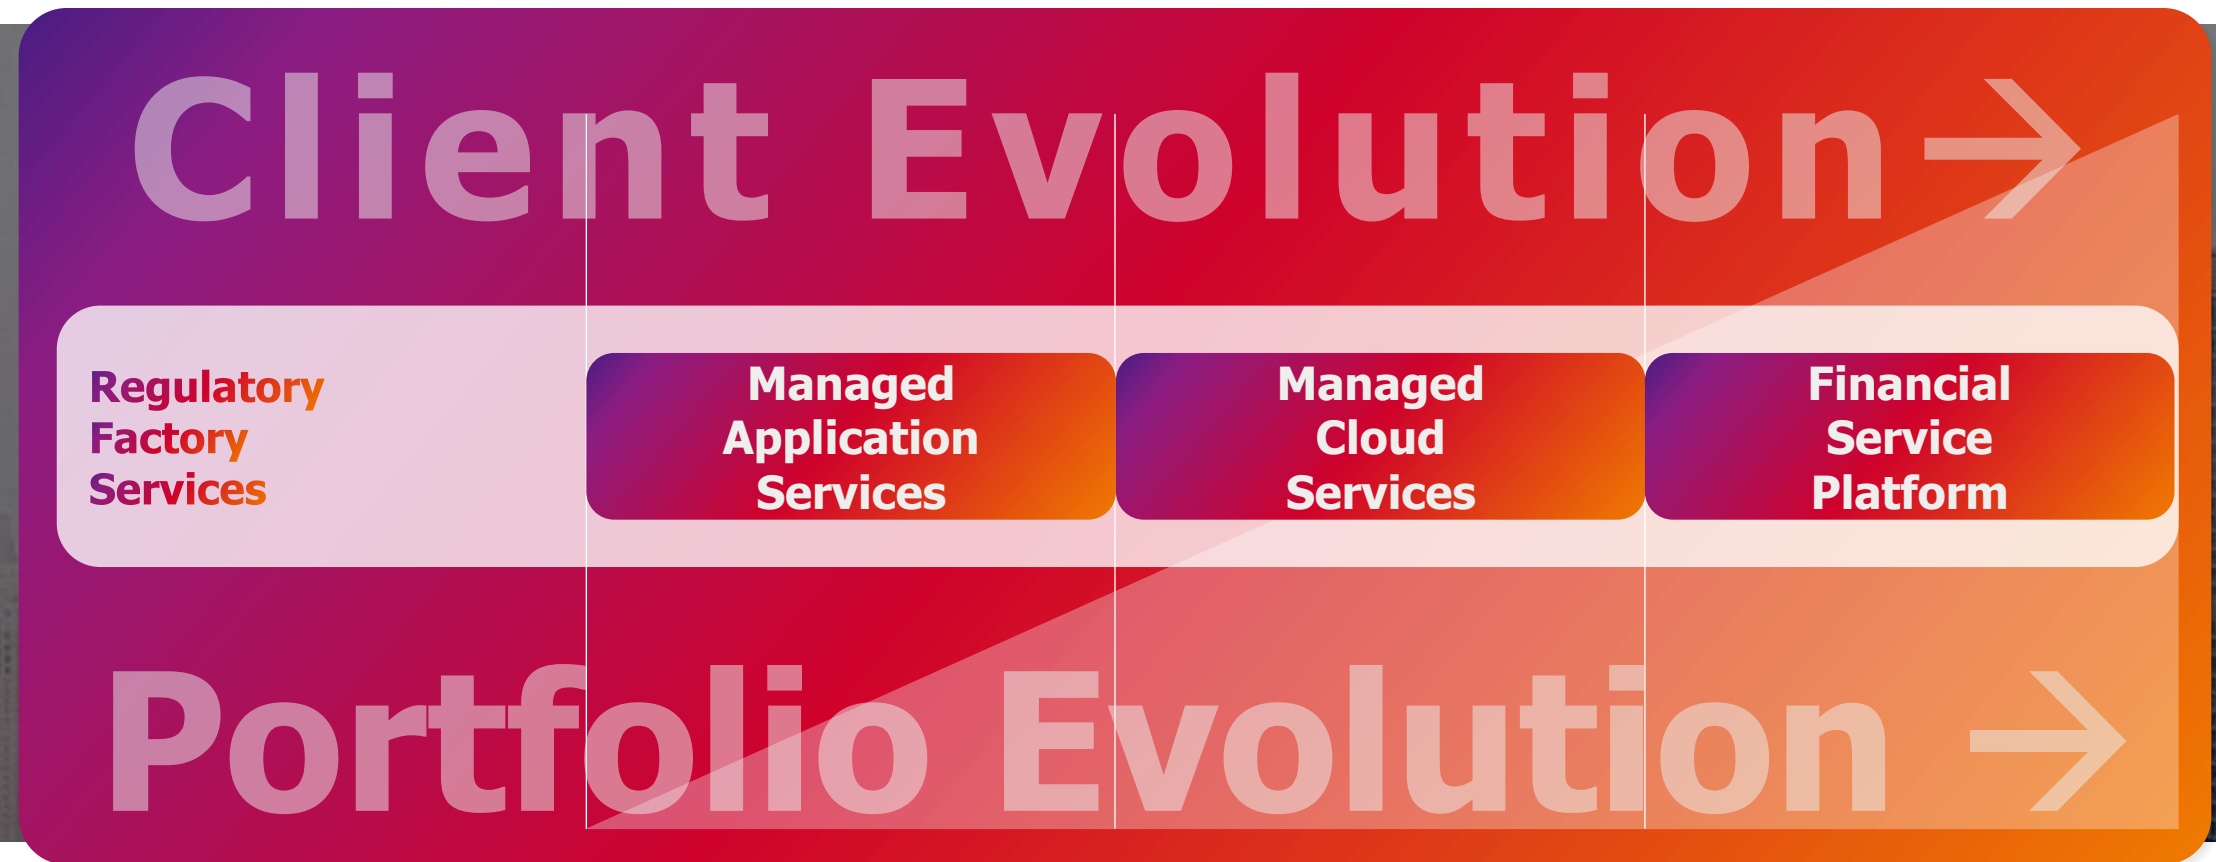

Our entire product & service portfolio is „compliant by design“

Our Portfolio delivers secure and regulatory compliant operations, bridging legacy to modern cloud and XaaS innovations for financial services providers.

Service Offering Evolution

We lead our customers into the future
